

AN AI PROTOCOL BUILT ON YOU. YOUR DATA STAYS YOURS.

Our own AI reads your DNA, epigenetics and daily life, and builds a protocol that changes as you do. Your record stays in your own vault, and you earn rewards for building it.

You get a generic plan. Your data gets sold for billions, and you get no say and no share.

Third-party deals from CNBC, TechCrunch, Tempus, Fierce Biotech and others, shown for context only. DEPH is not party to them; they are not a forecast or a valuation of DEPH.

03 • THE IDEA

DEPH FLIPS THAT. YOUR DATA, YOUR VAULT, YOUR REWARDS.

TODAY

THE COMPANY OWNS IT

- ✗ The company holds your data
- ✗ You have no real say over it
- ✗ It gets sold along with the company

WITH DEPH

YOU OWN IT

- ✓ Your record sits in your own encrypted vault
- ✓ Nothing is used without your OK. Take it back any time
- ✓ Every test and check-in earns you rewards

IT STARTS WITH YOUR BIOLOGY. ONE CLOCK FOR MEN. ONE FOR WOMEN.

MEN

ALPHAAGE

An ageing clock built only on men.
Accuracy (R^2) 0.88.

WOMEN

UMMUAGE

An ageing clock built only on women.
Accuracy (R^2) 0.849.

BIRTH

A RECORD FROM DAY ONE

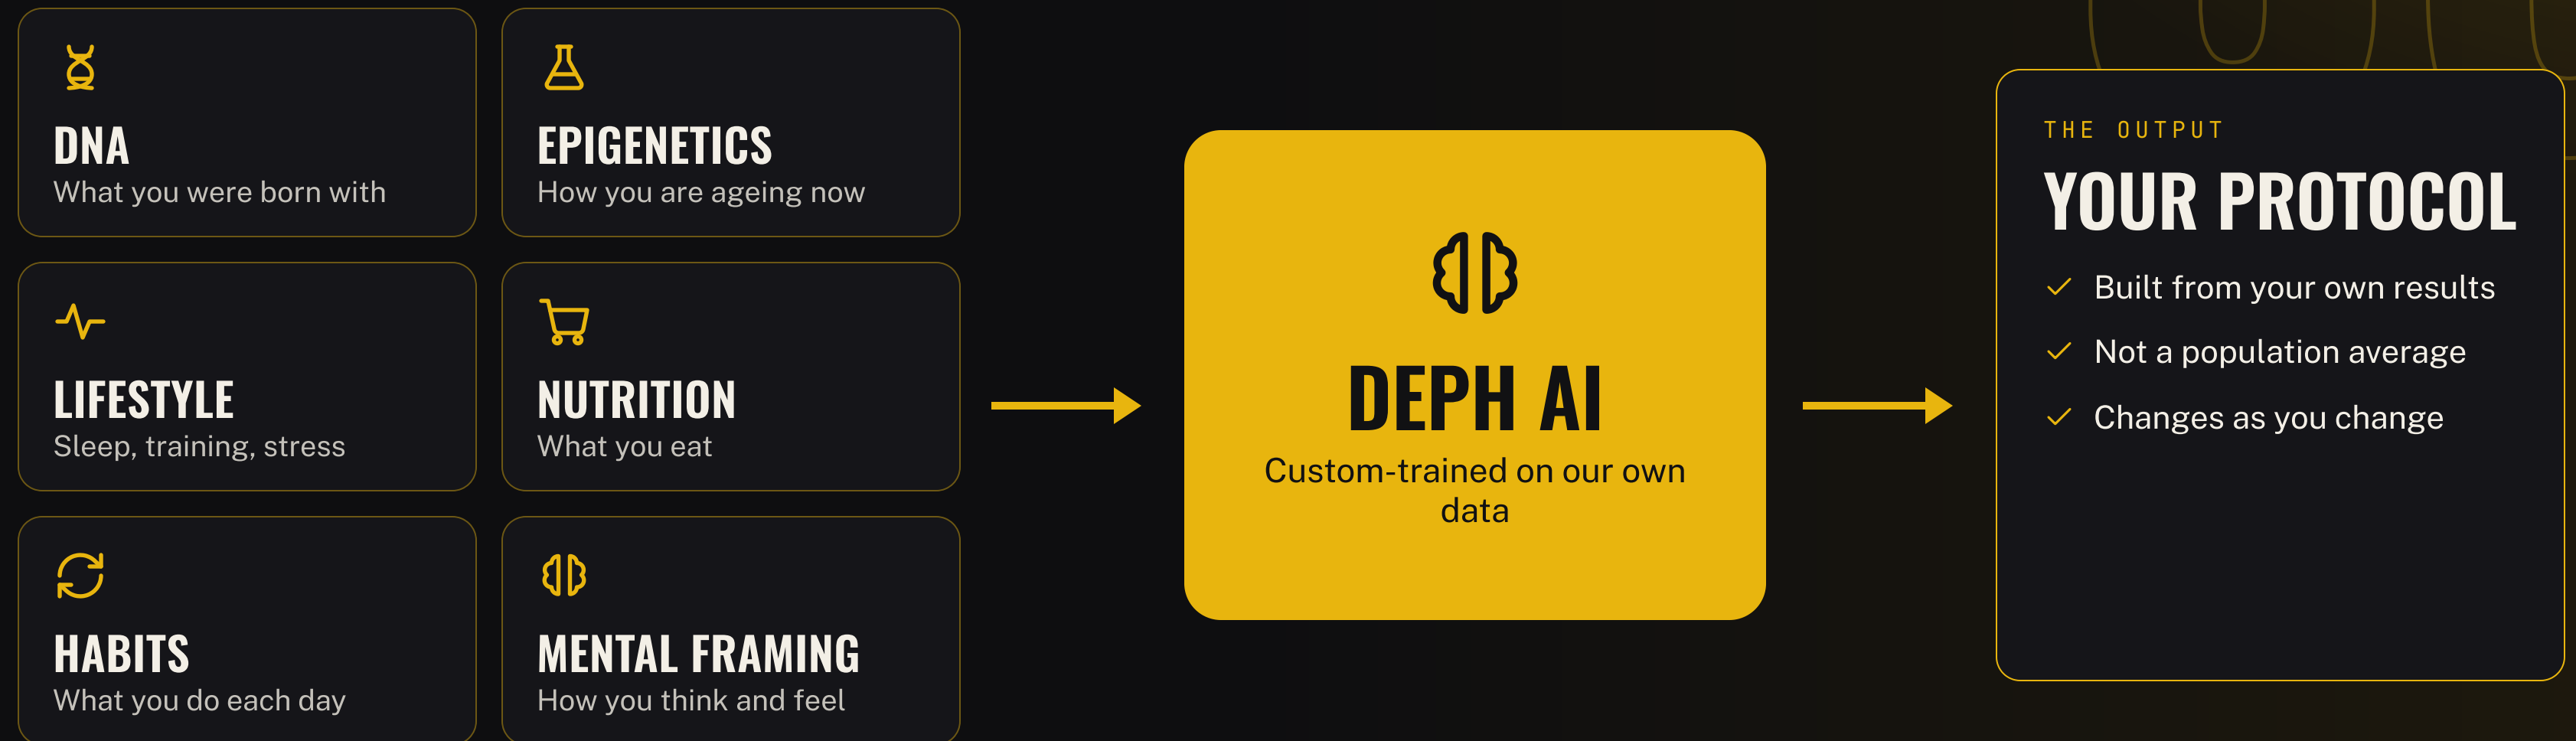

A child development tracker, in research.

EMECA

PRECISION CANNABINOID MEDICINE

Built on the same data and consent layer.

OUR OWN AI READS SIX LAYERS OF YOU. IT WRITES ONE PROTOCOL, JUST FOR YOU.

Most health apps read one layer. Ours reads all six together, so the protocol fits the whole person.

For general wellness and information. Not medical advice, a diagnosis or a treatment. Talk to a qualified doctor before changing medication or care.

YOUR PROTOCOL ADAPTS EVERY DAY. AND GETS SHARPER WITH EVERY TEST.

EVERY DAY

YOU USE THE APP

Meals, habits, sleep, training, mood. Every interaction tells the AI something new.

THE PROTOCOL ADJUSTS TODAY.

EVERY TEST

YOU RETEST

A new saliva read shows how your biology actually moved.

THE AI RECALIBRATES.

EVERY YEAR

YOUR RECORD GROWS

From performance to fertility to longevity, one record follows you for life.

YOUR HISTORY STAYS WITH YOU.

Generic health apps give everyone the same plan. **Yours is rebuilt around you, every day.**

IMAGINE AN AI THAT KNOWS YOU FOR LIFE.

WHAT YOU SEE

A NORMAL APP

- 👤 Download ENGNE or UMMU
- 💰 Pay by card, like any app
- 🧪 Take a saliva test at home
- 🔊 Get a protocol that adjusts daily
- 📊 Earn rewards, like loyalty points
- 🛒 Spend them on tests and products

WHAT RUNS UNDERNEATH

INVISIBLE TO YOU

- 🔒 Your record, in your own encrypted vault
- 🔑 You choose who uses it, and can say no
- 🛡️ Private computing on Secret Network
- # A history nobody can quietly change
- 💰 Rewards paid in the app's token
- 🔗 Network fees paid in \$DEPH

No crypto knowledge needed. Subscriptions are always paid in currency, and you never have to hold \$DEPH.

EVERYTHING THAT SHARPENS YOUR PROTOCOL EARNS YOU REWARDS.

20%

OF EVERY APP'S REVENUE GOES INTO THE DATA POOL AND THE ECOSYSTEM

The pool is shared out by points, paid in the app's token. It feels like a loyalty scheme. Your share is your points over everyone's points in the period. Examples below are illustrative. Rewards are not guaranteed.

WHAT THE DEPH NETWORK PROVIDES

 LAB TESTING Sequencing and assays at volume	 MANUFACTURE Supplements and protocols made to the result	 FULFILMENT Product and clinical services to the member
 TECHNOLOGY The confidential network the apps run on	 DATA AND AI Data processing and model compute, on encrypted records	 RESEARCH ACCESS The consented record, under each member's grants

THE NETWORK FEE

20–30%

Markup on what the network provides.
Settled in \$DEPH.

**50%
BURNED**

Destroyed at settlement.
Gone for good.

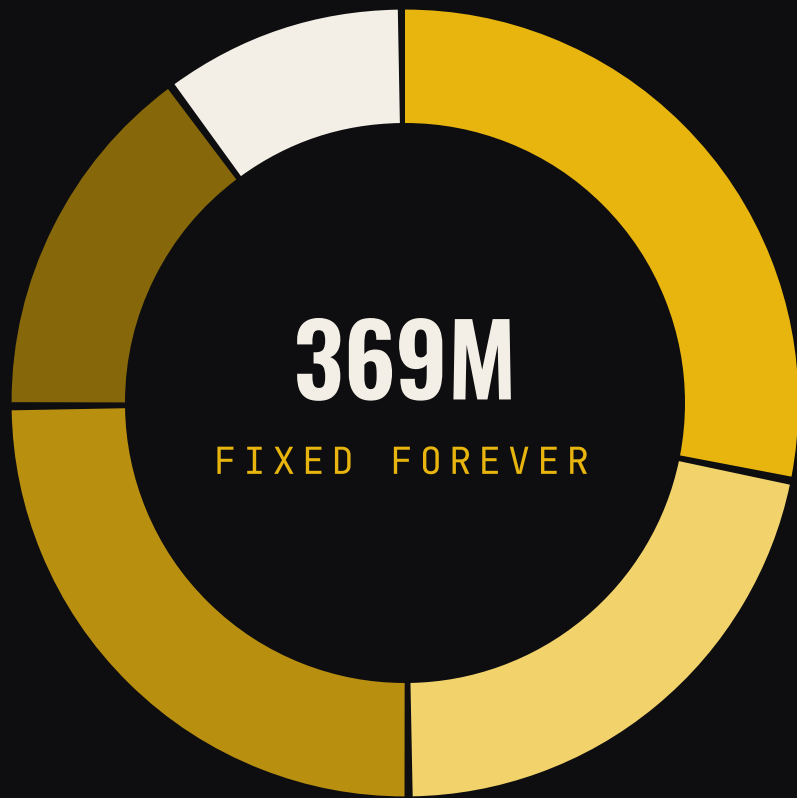

**50%
TREASURY**

Liquidity, ecosystem work, audits and grants.

Charged only on what the network provides, never on an app's own sales or subscriptions. An app that brings its own lab pays only for compute and access. Markup set per service class and published in advance. A fee burn, not a buyback.

\$DEPH KEEPS THE NETWORK RUNNING. 369 MILLION TOKENS. NO MORE, EVER.

IMPORTANT INFORMATION

Not an offer or advice. This deck is for general information only. It is not an offer to sell, or a solicitation of an offer to buy, any token, security or other financial product in any jurisdiction, and it is not investment, financial, legal, tax or medical advice. Do your own research and take independent advice before acting on anything in it.

Tokens. \$DEPH and app tokens are utility tokens used to operate the network. They are not shares, carry no ownership, dividend or voting rights, and are entirely separate from equity in DEPH Labs. No representation is made as to the future value of any token. Digital assets are volatile and you could lose all of their value. Tokens may not be available in every country, and you are responsible for following the laws where you live. Rewards pay for contributing data, not for holding, and are not guaranteed: they depend on the pool and on everyone's points.

Health. DEPH apps, tests and AI protocols are for general wellness and information. They do not diagnose, treat, cure or prevent any disease and do not replace a qualified doctor. Results vary from person to person.

Plans and sources. Roadmaps, launches, partnerships and other forward-looking statements are plans, not promises, and may change. Partner names and logos belong to their owners and are used with permission. Figures follow the DEPH technical and token whitepapers, subject to audit and change.
